

PROFESSIONAL SUMMARY:

Software Engineering graduate and Frontend Developer with hands-on experience in developing scalable, responsive web and mobile applications using React JS and React Native. Strong proficiency in JavaScript (ES6+), React Hooks, state management (Context API), React Router, and RESTful API integration. Experienced in building dashboard-driven, enterprise-level applications with modular architecture and reusable components. Skilled in UI/UX development, performance optimization, debugging, and cross-browser compatibility. Familiar with version control (Git/GitHub) and agile development practices. Seeking a Frontend Developer role to apply technical skills, contribute to high-quality software solutions, and grow within a collaborative development environment.

AREAS OF EXPERTISE:

- ✓ **Frontend Development:** React JS, React Native, Component-Based Architecture, Responsive Design
- ✓ **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- ✓ **React Concepts:** React Hooks (useState&Effect), Functional Components, Props & State Management
- ✓ **API Integration:** RESTful APIs, Axios, Fetch API, JSON Handling
- ✓ **UI/UX Development:** Responsive Layouts, Cross-Browser Compatibility, Mobile-First Design
- ✓ **State Management:** Context API, Basic Redux (if applicable)
- ✓ **Mobile App Development:** React Native CLI, Expo, Cross-Platform Development (iOS & Android)
- ✓ **Version Control:** Git, GitHub
- ✓ **Development Practices:** Debugging, Code Optimization, Reusable Components, Clean Code Principles

PROFESSIONAL EXPERIENCE:

Dev Stunners Junior Developer | [Feb 2026 – May 2026]

Developed responsive web applications using React JS. Built reusable components and implemented structured project architecture. Integrated REST APIs and managed state using React Hooks & Context API. Implemented routing with React Router and collaborated using Git.

Saufik I9 Islamabad Intern | [August 2025– December 2025]

Developed cross-platform mobile applications using React Native. Implemented navigation and integrated REST APIs. Assisted in debugging, testing, and performance improvements.

RELEVANT PROJECTS:

- **ERP Dashboard System (React JS)**
- Developed a modular ERP dashboard with structured navigation and multiple business modules. Implemented routing (React Router) and state management using React Hooks. Built responsive KPI components with reusable, maintainable architecture.
- **React Native Habit Tracking App**
- Developed a cross-platform Habit Tracking app using React Native with React Navigation. Implemented local storage for habit tracking and built responsive, reusable UI components.
- **And also the link of github portfolio is provided at top.**

EDUCATION:

2021 - 2025 | HITEC University Taxila
Bachelor of Software Engineering
